

John Morgan, MD, PhD

John Morgan, MD, PhD, has been in practice as a movement disorders specialist for more than 2 decades and as a memory specialist for approximately 12 years. He is a tenured Professor and the Director of the Movement and Memory Disorders Programs of the Medical College of Georgia at Augusta University. He earned his MD-PhD from the Medical College of Georgia and did a medicine internship and neurology residency at the University of Virginia. He is fellowship-trained in movement disorders and routinely cares for many patients with PD and other disorders. He has extensive experience in clinical trials for PD, RLS, Alzheimer's Disease and other disorders.

He has published numerous peer-reviewed publications and book chapters and served on the NIH NET-PD FS-ZONE Steering Committee. He has served as a co-investigator on VA Merit Review Grants studying the effects of niacin and niacinamide in PD.

On a personal note, he grew up in Jacksonville, Florida and his wife is a dysphagia-expert speech pathologist. They have four children. He really enjoys tennis, hiking, fishing, playing the stock market, movies, collecting sports cards and comics, and spending time with family.

Dr. Morgan was diagnosed with Parkinson's Disease in 2020.
